

Emerging Technologies Workshop: Network Programmability with Cisco APIC-EM

Cisco APIC-EM SandBox Instances and Credentials

Last updated 19 February 2018

Primarily use the NetAcad APIC-EM SandBox environment based on your color coded region:

Americas and APAC	EMEAR
https://DevNetSBX-NetAcad-APICEM-1.cisco.com User: devnetuser Password: NTgmY5UY	https://DevNetSBX-NetAcad-APICEM-3.cisco.com User: devnetuser Password: Xj3BDqbU
https://DevNetSBX-NetAcad-APICEM-2.cisco.com User: devnetuser Password: w0ISNW79	

General purpose, Public Always-On DevNet instance:

<https://SandBoxAPICEM.cisco.com>
User: devnetuser
Password: Cisco123!

*If a selected SandBox instance is not responding or misbehaving, try to fallback to other instances.
Instructors can raise a support ticket via [NetAcad Support Desk using the Live Chat](#).*
