

RECOMMENDATION FORM

Document No.: FM-EEC-16-02

Effective Date: July 28, 2017

Supersedes: EECET-01-01-11

DEFENSE	⊘ Proposal	\cap I	Final
TITLE	Object Detection for Inventory Stock Counting		
DATE /TIME/ ROOM OF DEFENSE:	October 15. 2021 / 1:00 PM / Zoom		
ADVISOR	1. Dr. Jennifer C. Dela Cruz	2.	3.
PANEL MEMBER	1 Engr. Charmaine Paglinawan	2. Engr. Jessie Balbin	3. Engr. Leonardo Valiente Jr.
FINAL RECOMMENDATION	○ No Revision○ Reject✓ Minor Revision○ Major Revision		
COURSE INSTRUCTOR	Dr. Jennifer C. Dela Cruz		
LIST OF RECOMMENDATIONS:			
Provide various camera heights and locations			
2. Include characterize the image for vertical orientation			
3. Add application on title of Object Detection for Inventory Stock Counting			
4. Specify a deeper problem and significance of the study			
5. if possible, apply SSD algorithm and compare its performance with YOLO			
6. Include performance metrics of the alogorithms			
7. Include table for noise reduction			
8. Include sample output images after application of the algorithms			
9. include "remarks" column in the tables.			
10. Specify the features of the objects to be detected and show how the algorithms detect each feature			
11. Include test for different lighting condition			
12. Include and discuss all the technical process of each step of the YOLO and SSD			
(Use the back sheet, if necessary)
